OVERVIEW

- This program aims to develop learners' understanding of management theories and practices within the context of logistics and supply chain management. It also enhances their skills in business strategy, procurement, inventory management, risk assessment, global supply chain dynamics, contract management, and finance — preparing them for advanced supervisory and managerial roles, as well as for further academic studies.

AIM

To prepare learners for advanced supervisory and managerial roles in logistics and supply chain management by equipping them with a strategic and in-depth understanding of procurement, contract management, supply chain finance, and the analysis of contemporary issues in a global context.

OBJECTIVES

- Enabling learners to analyze and develop effective strategies to enhance supply chain efficiency.
- Deepening their understanding of procurement and inventory management to ensure business continuity and cost reduction.
- Equipping them with the knowledge required to manage contracts and financial resources within supply chain contexts.
- Introducing them to global challenges and the impact of international trade on supply and logistics strategies.
- Developing their ability to evaluate risks and opportunities in dynamic business environments.
- Preparing them to progress to final-year bachelor's studies or to pursue advanced managerial positions in the field.

CORE STUDY UNITS:

- Principles and Concepts of Strategy
- Procurement and Inventory Management
- Contract and Financial Management
- Global Supply Chain Context
- Principles and Concepts of Supply Chain Management
- Contemporary Issues in Supply Chain Management

PROGRESSION PATHWAYS:

ACADEMIC PATHWAY:

Graduates can progress to the final (third) year of a Bachelor's degree in Logistic and supply chain management or related disciplines, either:

- Online, or
- On-campus at British universities in the UK.

Earning this qualification enables students to apply for a study visa and complete their degree in the United Kingdom.

All arrangements are facilitated through the Academy for eLearning.

PROFESSIONAL PATHWAY:

Graduates will be prepared for supervisory and administrative positions in various fields such as Human Resources, Marketing, Supply Chain Management, Management Consulting, and Operations Management.

ACCREDITATION AND CERTIFICATION:

Upon successful completion of the program, graduates will receive:

- A British Higher National Diploma (HND) issued by the British Academy for eLearning, certified in the UK and internationally recognized.

This provides graduates enhancing their academic and professional opportunities both locally and globally.
